Allowable Subject Matter

Claims 1,3-14 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach an I.V. flush syringe assembly or a method of flushing a catheter that includes, among all the limitations, anti-reflux means including the stopper having a conically shaped distal surface and the inside surface of the barrel at the distal wall being conically shaped wherein a total included angle of the inside surface of the barrel at the distal wall is greater than a total included angle of the stopper distal surface by at least 6 degrees, wherein upon delivery of fluid from the chamber the stopper contacts the distal end of the barrel and seals the passageway so that stopper deflection is controlled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571/2724970. The examiner can normally be reached on Monday - Friday.
